SUPPLEMENT TO

BRITTONIA

Publication of

THE AMERICAN SOCIETY OF PLANT TAXONOMISTS

VOLUME 26
1974

PUBLISHED FOR THE SOCIETY

by

THE NEW YORK BOTANICAL GARDEN

Printed by
ALLEN PRESS, INC.
Lawrence, Kansas
66044

CONTENTS OF VOLUME 26

NUMBER 1 [BRITTONIA **26:** 1–100, 1974, was issued May 10, 1974]

Instructions to Contributors 1

Reinstatement of the Genus Hymenaea (Leguminosae: Caesalpinioideae) in Africa ..... JEAN H. LANGENHEIM AND YIN-TSE LEE 3

A new Gustavia (Lecythidaceae) from Panama and Colombia ..... THOMAS B. CROAT AND SCOTT MORI 22

A new species of Camptosema (Leguminosae: Lotoideae) from the Planalto of Brazil ..... H. S. IRWIN AND MARY T. KALIN ARROYO 27

New taxa in Pectis (Compositae: Pectidinae) from Mexico and the southwestern United States ..... DAVID J. KEIL 30

Two new species of Besleria (Gesneriaceae) from Panama ..... JOAN W. NOWICKE 37

Relationships of the purple-fringed orchids Platanthera psycodes and P. grandiflora ..... WARREN P. STOUTAMIRE 42

Nomenclatural changes in the Poaceae ..... FRANK W. GOULD 59

Chromosome numbers in Heterotheca, including Chrysopsis (Compositae: Astereae), with phylogenetic interpretations ..... VERNON L. HARMS 61

Monochaetum talamancense (Melastomataceae): A new species endemic to Costa Rica ..... FRANK ALMEDA, JR. 70

A morphological and chemical study of Populus acuminata Rydberg ..... DANIEL J. CRAWFORD 74

Two shrubby novelties in Eriogonum (Polygonaceae) from the deserts of Utah and Arizona ..... JAMES L. REVEAL 90

Fryxellia, a New Genus of North American Malvaceae ..... DAVID M. BATES 95

NUMBER 2 [BRITTONIA **26:** 101–216, 1974, was issued June 28, 1974]

Chromosome numbers and taxonomic notes in the genus Nama (Hydrophyllaceae) ..... JOHN D. BACON 101

A new Senecio (Compositae) from California ..... T. M. BARKLEY AND R. M. BEAUCHAMP 106

Dragma Hippomanicum. I. ..... R. C. BARNEBY 109

A new species of Psilostrophe (Compositae) from Mexico ..... ROY CURTISS BROWN 115

The nature and status of Lysimachia × producta (Primulaceae) ..... TOM S. COOPERRIDER AND BRUCE L. BROCKETT 119

A new geocarpic genus from Mexico: Apatzingania (Cucurbitaceae) ..... Jennie V. A. Dieterle 129

Four new species of Smilax (Smilacaceae) from southeastern Asia ..... Tetsuo Koyama 133

Systematics of the genus Ceratopteris Brongn. (Parkeriaceae) II. Taxonomy ..... Robert M. Lloyd 139

Coreopsis nuecensis (Compositae) and a related new species from southern Texas ..... Edwin B. Smith 161

Chromosome numbers for native North American unifoliolate species of Crotalaria (Leguminosae) ..... Donald R. Windler 172

Taxonomy of Tetradymia (Compositae: Senecioneae) ..... John L. Strother 177

Chromosome numbers and generic relationships in subtribe Stephanomeriinae (Compositae: Cichorieae) ..... A. Spencer Tomb 203

Notice 216

Number 3 [Brittonia **26:** 217–320, 1974, was issued September 27, 1974]

Revision of the genus Adenophorus (Grammitidaceae) ..... L. Earl Bishop 217

Introgressive hybridization in two southern California species of Rhus (Anacardiaceae) ..... David A. Young 241

Rocky Mountain species of Paronychia (Caryophyllaceae): a morphological, cytological, and chemical study ..... Ronald L. Hartman 256

Three new legume species from South America
Howard S. Irwin and Mary T. Kalin Arroyo 264

Revision of Richardia (Rubiaceae) ..... Walter H. Lewis and Royce L. Oliver 271

A new Peruvian species of chiropterophilous Couepia (Chrysobalanaceae)
Ghillean T. Prance 302

A new Lewisia (Portulacaceae) from the Sierra Nevada of California
L. R. Heckard and G. L. Stebbins 305

Three new species from the Great Basin
Noel H. Holmgren and Arthur H. Holmgren 309

RESEARCH NOTES:

The use of neutron activation analysis in pollination ecology
Martha M. Gaudreau and James W. Hardin 316

Notice 320

NUMBER 4 [BRITTONIA **26:** 321–450, 1974, was issued December 31, 1974]

Breeding studies in the genus Camellia (Theaceae). I. A chemotaxonomic analysis of synthetic hybrids and backcrosses involving Camellia japonica and C. saluenensis ..... CLIFFORD R. PARKS AND KATSUHIKO KONDO 321

Taxonomy of the genus Aspasia Lindley (Orchidaceae: Oncidieae)
NORRIS H. WILLIAMS 333

Novelties in Stevia (Compositae: Eupatorieae) ..... JEROLD L. GRASHOFF 347

A systematic study of Dugaldia (Compositae) ..... MARK W. BIERNER 385

A new epiphytic Blakea (Melastomataceae) from Panama .. FRANK ALMEDA, JR. 393

Erratum—on the correct name for the appressed-winged variety of Hymenoclea salsola (Compositae: Ambrosieae)
KATHLEEN M. PETERSON AND WILLARD W. PAYNE 397

A numerical study of the common narrow-leaved taxa of Chenopodium occurring in the western United States
DANIEL J. CRAWFORD AND JAMES F. REYNOLDS 398

Erratum 410

Flavonoid races in Lasthenia (Compositae)
ROBERT ORNDUFF, B. A. BOHM, AND N. A. M. SALEH 411

Trends, priorities, and needs in systematic and evolutionary biology 421

Volume Index 445

Statement of Ownership 450

INDEX TO VOLUME 26

New names and epithets are printed in **boldface.** Taxa mentioned only incidentally are not indexed.

Acosmium **cardenasii** 264

Adenophorus (Grammitidaceae), Revision of the genus, by L. EARL BISHOP 217–240

Adenophorus subgen. **Oligadenus** 231, **oahuensis** 237, **oahuensis** × **pinnatifidus** 238, **periens** 232, *tamariscinus* var. **epigaeus** 226, *tamariscinus* var. **montanus** 225

Africa, Reinstatement of the genus *Hymenaea* (Leguminosae: Caesalpinioideae) in 3–21

Allium **passeyi** 309

ALMEDA, FRANK JR., *Monochaetum* **talamancense** (Melastomataceae): a new species endemic to Costa Rica 70–73; A new epiphytic *Blakea* (Melastomataceae) from Panama. 393–397

AL-SHEHBAZ, IHSAN A., recipient of the 1974 Jesse M. Greenman Award 216

Anacardiaceae: Introgressive hybridization in two southern California species of *Rhus*. 241–255

Apatzingania (Cucurbitaceae), A new geocarpic genus from Mexico: 129–132, **Apatzingania** 131, **arachoidea** 131

Arizona, Two shrubby novelties in *Eriogonum* (Polygonaceae) from the deserts of Utah and 90–94

ARROYO, MARY T. KALIN, See: IRWIN, H. S. and MARY T. KALIN ARROYO

Asia, Four new species of *Smilax* (Smilacaceae) from southeastern 133–138

Aspasia Lindley (Orchidaceae: Oncidieae), Taxonomy of the genus 333–346

Astragalus **koelzii** 113, **ledinghamii** 111, **schinetorum** 106

BACON, JOHN D., Chromosome numbers and taxonomic notes in the genus *Nama* (Hydrophyllaceae). 101–105

BARKLEY, T. M. and R. M. BEAUCHAMP, A new *Senecio* (Compositae) from California. 106–108

BARNEBY, R. C., Dragma hippomanicum I. 109–114

BATES, DAVID M., **Fryxellia,** a new genus of North American Malvaceae. 95–100

BEAUCHAMP, R. M., See: BARKLEY, T. M. and R. M. BEAUCHAMP

Besleria (Gesneriaceae) from Panama, Two new species of 37–41, **formicaria** 37, **subulata** 38

BIERNER, MARK W., A systematic study of *Dugaldia* (Compositae). 385–392

BISHOP, L. EARL, Revision of the genus *Adenophorus* (Grammitidaceae). 217–240

Blakea (Melastomataceae) from Panama, A new epiphytic 393–397, **wilburiana** 394

BOHM, B. A., See: ORNDUFF, ROBERT, B. A. BOHM, and N. A. M. SALEH

Botanical Congress in Leningrad, Notice to persons planning to attend the 1975 202

Brazil, A new species of *Camptosema* (Leguminosae: Lotoideae) from the Planalto of 27–29

Breeding studies in the genus *Camellia* (Theaceae). I. A. chemotaxonomic analysis of synthetic hybrids and backcrosses involving *Camellia japonica* and *C. saluenensis*, by CLIFFORD R. PARKS and KATSUHIKO KONDO 321–332

BROCKETT, BRUCE L., See: COOPERRIDER, TOM S. and BRUCE L. BROCKETT

BROWN, ROY CURTISS, A new species of *Psilostrophe* (Compositae) from Mexico. 115–118

California, A new *Lewisia* (Portulacaceae) from the Sierra Nevada of 305–308; A new *Senecio* (Compositae) from 106–108; species of *Rhus* (Anacardiaceae), Introgressive hybridization in two southern 241–255

Camellia (Theaceae). I. A chemotaxonomic analysis of synthetic hybrids and backcrosses involving *Camellia japonica* and *C. saluenensis*, breeding studies in the genus 321–332

Camptosema (Leguminosae: Lotoideae) from the Planalto of Brazil, A new species of 27–29, **douradense** 27

Caryophyllaceae: Rocky Mountain species of *Paronychia*: A morphological, cytological, and chemical study. 256–263

Ceratopteris Brongn. (Parkeriaceae) II. Taxonomy, Systematics of the genus 139–160

Chemical study of *Populus acuminata* Rydberg, A morphological and 74–89; Rocky Mountain species of *Paronychia* (Caryophyllaceae): A morphological, cytological, and 256–263

A chemotaxonomic analysis of synthetic hybrids and backcrosses involving *Camellia japonica* and *C. saluenensis*, Breeding studies in the genus *Camellia* (Theaceae). I 321–332

Chenopodium occurring in the western United States, A numerical study of the common narrow-leaved taxa of 398–410

Chiropterophilous *Couepia* (Chrysobalanaceae), A new Peruvian species of 302–304

Chromosome numbers and generic relationships in subtribe Stephanomeriinae (Compositae: Cichorieae), by A. SPENCER TOMB 203–216; and taxonomic notes in the genus *Nama* (Hydrophyllaceae), by JOHN D. BACON 101–105; for native North American unifoliolate species of *Crotalaria* (Leguminosae), by DONALD R. WINDLER 172–176; in *Heterotheca* including *Chrysopsis* (Compositae: Asterae), with phylogenetic interpretations, by VERNON L. HARMS 61–69; in *Calycoseris* (Compositae) 204; in *Coreopsis* (Compositae) 161–171; in *Dugaldia* (Compositae) 385; in *Glyptopleura* (Compositae) 204; in *Hymenaea* and *Trachylobium* (Leguminosae) 9–11; in *Lygodesmia* (Compositae) 204–208; in *Malacothrix* (Compositae) 208; in *Paronychia* (Caryophyllaceae) 259; in *Pectis* (Compositae) 34; in *Pinaropappus* (Compositae) 208–209; in *Populus acuminata* (Salicaceae) 79; in *Psilostrophe* (Com-

positae) 115; in *Rafinesquia* (Compositae) 209; in *Stephanomeria* (Compositae) 209–211; in *Tetradymia* (Compositae) 179–181
Chrysobalanaceae: A new Peruvian species of chiropterophilous *Couepia*. 302–304
Chrysopsis (Compositae: Astereae) with phylogenetic interpretations, Chromosome numbers in *Heterotheca* including 61–69
Colombia, A new *Gustavia* (Lecythidaceae) from Panama and 22–26
Compositae: Chromosome numbers and generic relationships in subtribe Stephanomeriinae. 203–216; Chromosome numbers in *Heterotheca* including *Chrysopsis* with phylogenetic interpretations. 61–69; *Coreopsis nuecensis* and a related new species from southern Texas. 161–171, 410; Flavonoid races in *Lasthenia*. 411–420; Name correction in *Hymenoclea* 397; A new *Senecio* from California. 106–108; A new species of *Psilostrophe* from Mexico. 115–118; New taxa in *Pectis* from Mexico and the southwestern United States. 30–36; Novelties in *Stevia*. 347–384; A systematic study of *Dugaldia*. 385–392; Taxonomy of *Tetradymia*. 177–202
COOPERRIDER, TOM S. and BRUCE L. BROCKETT, The nature and status of *Lysimachia* × *producta* (Primulaceae). 119–128
Coreopsis nuecensis (Compositae) and a related new species from southern Texas, by EDWIN B. SMITH 161–171, 410, **nuecensoides** 169
Costa Rica, *Monochaetum* **talamancense** (Melastomataceae): A new species endemic to 70–73
Couepia (Chrysobalanaceae), A new Peruvian species of chiropterophilous 302–304, **dolichopoda** 302
CRAWFORD, DANIEL J., A morphological and chemical study of *Populus acuminata* Rydberg. 74–89
CRAWFORD, DANIEL J. and JAMES F. REYNOLDS, A numerical study of the common narrow-leaved taxa of *Chenopodium* occurring in the western United States. 398–410
CROAT, THOMAS B. and SCOTT MORI, A new *Gustavia* (Lecythidaceae) from Panama and Colombia. 22–26
Crotalaria (Leguminosae), Chromosome numbers for native North American unifoliolate species of 172–176
Cucurbitaceae: A new geocarpic genus from Mexico: **Apatzingania** 129–132
Cytological, and chemical study, Rocky Mountain species of *Paronychia* (Caryophyllaceae): A morphological, 256–263
Dichanthelium 59, **angustifolium** 59, **clandestinum** 59, **commutatum** 59, **depauperatum** 59, **dichotomum** 59, **ensifolium** 59, **lanuginosum** 60, **lanuginosum** var. **villosissimum** 60, **laxiflorum** 60, **lindheimeri** 60, **linearifolium** 60, **malacophyllum** 60, **nodatum** 60, **oligosanthes** 60, **oligosanthes** var. **scribnerianum** 60, **pedicillatum** 60, **scoparium** 60, **sphaerocarpon** 60, **sphaerocarpon** var. **polyanthes** 60
DIETERLE, JENNIE V. A., A new geocarpic genus from Mexico: **Apatzingania** (Cucurbitaceae). 129–132
Dragma hippomanicum I, by R. C. BARNEBY 109–114
Dugaldia (Compositae), A systematic study of 385–392, **pinetorum** 391
Elymus **longifolius** 60
Eriogonum (Polygonaceae) from the deserts of Utah and Arizona, Two shrubby novelties 90–94, **lepticladon** 90, **leptocladon** var. **papiliunculi** 92, **mortonianum** 90
Erioneuron **avenaceum** 60, **avenaceum** var. **grandiflorum** 60, **avenaceum** var. **nealleyi** 60
Erratum, *Hymenoclea* 397, *Coreopsis* 410
Evolutionary biology, Trends, priorities, and needs in systematic and 421–444
Flavonoid races in *Lasthenia* (Compositae), by ROBERT ORNDUFF, B. A. BOHM, and N. A. M. SALEH 411–420
Flavonoids in *Dugaldia* (Compositae) 386, in *Paronychia* (Caryophyllaceae) 260, in *Populus acuminata* 79–83
Four new species of *Smilax* (Smilacaceae) from southeastern Asia, by TETSUO KOYAMA 133–138
Fryxellia, a new genus of North American Malvaceae, by DAVID M. BATES 95–100; **Fryxellia** 95, **pygmaea** 95
Generic relationships in subtribe Stephanomeriinae (Compositae: Cichorieae), Chromosome numbers and 203–216
GAUDREAU, MARTHA M. and JAMES W. HARDIN, The use of neutron activation analysis in pollination ecology. 316–320
Geocarpic genus from Mexico: **Apatzingania** (Cucurbitaceae), A new 129–132
Geraniaceae: *Geranium* **toquimense** 311
Geranium **toquimense** 311
Gesneriaceae: Two new species of *Besleria* from Panama 37–41
GOULD, FRANK W., Nomenclatural changes in the Poaceae. 59–60
Gramineae, See: Poaceae
Grammitidaceae: Revision of the genus *Adenophorus*. 217–240
GRASHOFF, JEROLD L., Novelties in *Stevia* (Compositae: Eupatorieae). 347–384
Great Basin, Three new species from the 309–315
Greenman Award, The Seventh Annual Jesse M. 216
Gustavia (Lecythidaceae) from Panama and Colombia, A new 22–26, **grandibracteata** 22
HARDIN, JAMES W., See: GAUDREAU, MARTHA M. and JAMES W. HARDIN
HARMS, VERNON L., Chromosome numbers in *Heterotheca* including *Chrysopsis* (Compositae: Astereae), with phylogenetic interpretations. 61–69
HARTMAN, RONALD L., Rocky Mountain species of *Paronychia* (Caryophyllaceae): A morphological, cytological, and chemical study. 256–263
Hawaii: Revision of the genus *Adenophorus* (Grammitidaceae). 217–240
HECKARD, L. R. and G. L. STEBBINS, A new *Lewisia* (Portulacaceae) from the Sierra Nevada of California. 305–308

Heterotheca including *Chrysopsis* (Compositae: Astereae) with phylogenetic interpretations, Chromosome numbers in 61–69, **bolanderi** 61, **fastigiata** 61, **villosa** 61, **villosa** var. **hispida** 61

HOLMGREN, ARTHUR H., See HOLMGREN, NOEL H. and ARTHUR H. HOLMGREN

HOLMGREN, NOEL H. and ARTHUR H. HOLMGREN, Three new species from the Great Basin. 309–315

Hybridization in two southern California species of *Rhus* (Anacardiaceae), Introgressive 241–255

Hydrophyllaceae: Chromosome numbers and taxonomic notes in the genus *Nama*. 101–105

Hymenaea (Leguminosae: Caesalpinioideae) in Africa, Reinstatement of the genus 3–21

Hymenoclea, Name correction in 397, *salsola* var. **patula** 397

Instructions to contributors 1–2

Introgressive hybridization in two southern California species of *Rhus* (Anacardiaceae), by DAVID A. YOUNG 241–255

IRWIN, H. S. and MARY T. KALIN ARROYO, A new species of *Camptosema* (Leguminosae: Lotoideae) from the Planalto of Brazil. 27–29; Three new legume species from South America. 264–270

KEIL, DAVID J., New taxa in *Pectis* (Compositae: Pectidinae) from Mexico and the southwestern United States. 30–36

Key to species of *Adenophorus* (Grammitidaceae) 222–223; to species of *Allium canadense* alliance from western U.S. 311; to species of *Aspasia* (Orchidaceae) 337; to species of *Ceratopteris* (Parkeriaceae) 148; to genera of Compositae subtribe Stephanomeriinae 214–215; to species of *Dugaldia* (Compositae) 387; to species of *Geranium* sect. *Caespitosa* of Intermountain Region 313; to four species of *Lewisia* (Portulacaceae) 307; to Brazilian species of *Moldenhauera* (Leguminosae) 266–267; to varieties of *Pectis purpurea* (Compositae) 36; to species of *Primula* sect. *Farinosae* (Primulaceae) 315; to species of *Rhus* sect. *Styphonia* and *Malosma* (Anacardiaceae) 253; to species of *Richardia* (Rubiaceae) 275–276; to species of *Tetradymia* (Compositae) 184–185

KONDO, KATSUHIKO, See: PARKS, CLIFFORD R. and KATSUHIKO KONDO

KOYAMA, TETSUO, Four new species of *Smilax* (Smilacaceae) from southeastern Asia. 133–138

LANGENHEIM, JEAN H. and YIN-TSE LEE, Reinstatement of the genus *Hymenaea* (Leguminosae: Caesalpinioideae) in Africa. 3–21

Lasthenia (Compositae), Flavonoid races in 411–420

Lecythidaceae: A new *Gustavia* from Panama and Colombia. 22–26

LEE, YIN-TSE, See: LANGENHEIM, JEAN H. and YIN-TSE LEE

Legume species from South America, Three new 264–270

Leguminosae: Chromosome numbers for native North American unifoliolate species of *Crotalaria*. 172–176; Dragma hippomanicum I. (*Astragalus*) 109–114; A new species of *Camptosema* from the Planalto of Brazil. 27–29; Three new legume species from South America. 264–270

Leningrad, Notice to persons planning to attend the 1975 Botanical Congress in 202

Leptoloma **tomentosum** 60

LEWIS, WALTER H. and ROYCE L. OLIVER, Revision of *Richardia* (Rubiaceae). 271–301

Lewisia (Portulacaceae) from the Sierra Nevada of California, A new 305–308, **serrata** 305

Liliaceae: *Allium* **passeyi** 309

LLOYD, ROBERT M., Systematics of the genus *Ceratopteris* Brongn. (Parkeriaceae) II. Taxonomy. 139–160

Lysimachia × *producta* (Primulaceae), The nature and status of 119–128

Malvaceae, **Fryxellia**, a new genus of North American 95–100

Melastomataceae: *Monochaetum* **talamancense**: a new species endemic to Costa Rica. 70–73; A new epiphytic *Blakea* from Panama. 393–397

Mexico, **Apatzingania** (Cucurbitaceae), a new geocarpic genus from 129–132; a new species of *Psilostrophe* from 115–118; and the southwestern United States, New taxa in *Pectis* (Compositae: Pectidinae) from 30–36

Moldenhauera **nitida** 266

Monochaetum **talamancense** (Melastomataceae): a new species endemic to Costa Rica, by FRANK ALMEDA, JR. 70–73, **talamancense** 72

MORI, SCOTT, See: CROAT, THOMAS B. and SCOTT MORI

A morphological and chemical study of *Populus acuminata* Rydberg, by DANIEL J. CRAWFORD 74–89

Nama (Hydrophyllaceae), Chromosome numbers and taxonomic notes in the genus 101–105

The nature and status of *Lysimachia* × *producta* (Primulaceae), by TOM S. COOPERRIDER and BRUCE L. BROCKETT 119–128

Neutron activation analysis in pollination ecology, The use of 316–320

A new epiphytic *Blakea* (Melastomataceae) from Panama, by FRANK ALMEDA, JR. 393–397

A new *Gustavia* (Lecythidaceae) from Panama and Colombia, by THOMAS B. CROAT and SCOTT MORI 22–26

A new *Lewisia* (Portulacaceae) from the Sierra Nevada of California, by L. R. HECKARD and G. L. STEBBINS 305–308

A new Peruvian species of chiropterophilous *Couepia* (Chrysobalanaceae), by GHILLEAN T. PRANCE 302–304

A new *Senecio* (Compositae) from California, by T. M. BARKLEY and R. M. BEAUCHAMP 106–108

A new species of *Camptosema* (Leguminosae: Lotoideae) from the Planalto of Brazil, by H. S. IRWIN and MARY T. KALIN ARROYO 27–29

A new species of *Psilostrophe* (Compositae)

from Mexico, by ROY CURTISS BROWN 115–118
New taxa in *Pectis* (Compositae: Pectidinae) from Mexico and the southwestern United States, by DAVID J. KEIL 30–36
Nomenclatural changes in the Poaceae, by FRANK W. GOULD 59–60
North American Malvaceae, **Fryxellia,** a new genus of 95–100; unifoliolate species of *Crotalaria* (Leguminosae), Chromosome numbers for native 172–176
Notice, ACADEMY OF NATURAL SCIENCES OF PHILADELPHIA 216, 320; to persons planning to attend the 1975 Botanical Congress in Leningrad 202
Novelties in *Eriogonum* (Polygonaceae) from the deserts of Utah and Arizona, Two shrubby 90–94
Novelties in *Stevia* (Compositae: Eupatoricae), by JEROLD L. GRASHOFF 347–384
NOWICKE, JOAN W., Two new species of *Besleria* (Gesneriaceae) from Panama. 37–41
A numerical study of the common narrow-leaved taxa of *Chenopodium* occurring in the western United States, by DANIEL J. CRAWFORD and JAMES F. REYNOLDS 398–410
OLIVER, ROYCE L., See: LEWIS, WALTER H. and ROYCE L. OLIVER
Orchidaceae: Taxonomy of the genus *Aspasia* 333–346; Relationships of the purple-fringed orchids *Platanthera psycodes* and *P. grandiflora* 42–58
Orchids *Platanthera psycodes* and *P. grandiflora*, Relationships of the purple-fringed 42–58
ORNDUFF, ROBERT, B. A. BOHM, and N. A. M. SALEH, Flavonoid races in *Lasthenia* (Compositae). 411–420
Panama, Two new species of *Besleria* (Gesneriaceae) from 37–41; and Colombia, A new *Gustavia* (Lecythidaceae) from 22–26
Parkeriaceae: Systematics of the genus *Ceratopteris* Brongn. II. Taxonomy. 139–160
PARKS, CLIFFORD R. and KATSUHIKO KONDO, Breeding studies in the genus *Camellia* (Theaceae). I. A chemotaxonomic analysis of synthetic hybrids and backcrosses involving *Camellia japonica* and *C. saluenensis*. 321–332
Paronychia (Caryophyllaceae): A morphological, cytological, and chemical study of Rocky Mountain species of 256–263
PAYNE, WILLARD W., See: PETERSON, KATHLEEN M. and WILLARD W. PAYNE
Pectis (Compositae: Pectidinae) from Mexico and the southwestern United States, New taxa in 30–36, **minutiflora** 30, *papposa* var. **grandis** 32, *purpurea* var. **lancifolia** 36, *purpurea* var. **sonorae** 35
Peruvian species of chiropterophilous *Couepia* (Chrysobalanaceae), A new 302–304
PETERSON, KATHLEEN M. and WILLARD W. PAYNE, Erratum: On the correct name for the appressed-winged variety of *Hymenoclea salsola* (Compositae: Ambrosieae). 397
PHILADELPHIA, Notice: ACADEMY OF NATURAL SCIENCES OF 216, 320
Phylogenetic interpretations, Chromosome numbers in *Heterotheca* including *Chrysopsis* (Compositae: Astereae) with 61–69
Platanthera psycodes and *P. grandiflora*, Relationships of the purple-fringed orchids 42–58
Poaceae: Nomenclatural changes in the 59–60
Pollen of *Besleria* **subulata** 40; of *Hymenaea* and *Trachylobium* 9
Pollination ecology, The use of neutron activation analysis in 316–320
Polygonaceae: Two shrubby novelties in *Eriogonum* from the deserts of Utah and Arizona. 90–94
Populus acuminata Rydberg, A morphological and chemical study of 74–89
Portulacaceae: A new *Lewisia* from the Sierra Nevada of California. 305–308
PRANCE, GHILLEAN T., A new Peruvian species of chiropterophilous *Couepia* (Crysobalanaceae). 302–304
Primula **capillaris** 313
Primulaceae: The nature and status of *Lysimachia* × *producta*. 119–128; *Primula* **capillaris** 313
Psilostrophe (Compositae) from Mexico, A new species of 115–118, **mexicana** 115
Purple-fringed orchids *Platanthera psycodes* and *P. grandiflora*, Relationships of the 42–58
RAVEN, PETER H. (editor, workshop report), Trends, priorities, and needs in systematic and evolutionary biology. 421–444
Reinstatement of the genus *Hymenaea* (Leguminosae: Caesalpinioideae) in Africa, by JEAN H. LANGENHEIM and YIN-TSE LEE 3–21
Relationships of the purple-fringed orchids *Platanthera psycodes* and *P. grandiflora*, by WARREN P. STOUTAMIRE 42–58
Resin chemistry: *Hymenaea* and *Trachylobium* (Leguminosae) 11–14
REVEAL, JAMES L., Two shrubby novelties in *Eriogonum* (Polygonaceae) from the deserts of Utah and Arizona. 90–94
Revision of the genus *Adenophorus* (Grammitidaceae). 217–240; of *Richardia* (Rubiaceae). 271–301
REYNOLDS, JAMES F., See: CRAWFORD, DANIEL J. and JAMES F. REYNOLDS
Rhus (Anacardiaceae), Introgressive hybridization in two southern California species of 241–255
Richardia (Rubiaceae), Revision of 271–301, sect. **Asterophyton** 284, **arenicola** 289, **boliviensis** 294, **ciliata** 291, *muricata* subsp. **pectidifolia** 289, **schumannii** 296, *tricocca* subsp. **tetracocca** 287
Rubiaceae: Revision of *Richardia*. 271–301
Rocky Mountain species of *Paronychia* (Caryophyllaceae): A morphological, cytological, and chemical study, by RONALD L. HARTMAN 256–263
SALEH, N. A. M., See: ORNDUFF, ROBERT, B. A. BOHM, and N. A. M. SALEH
Salicaceae: A morphological and chemical study of *Populus acuminata* Rydberg. 74–89
Sclerolobium **prancei** 268
Senecio (Compositae) from California, A new 106–108, **ganderi** 106

The Seventh Annual Jesse M. Greenman Award 216
Sierra Nevada of California, A new *Lewisia* (Portulacaceae) from the 305–308
Smilacaceae: Four new species of *Smilax* from southeastern Asia. 133–138
Smilax (Smilacaceae) from southeastern Asia, Four new species of 133–138, **biumbellata** 133, **inversa** 134, **pachysandroides** 136, **siamensis** 136
SMITH, EDWIN B., *Coreopsis nuecensis* (Compositae) and a related new species from southern Texas. 161–171, 410
South America, Three new legume species from 264–270
STEBBINS, G. L., See: HECKARD, L. R. and G. L. STEBBINS
Stephanomeriinae (Compositae: Cichorieae), Chromosome numbers and generic relationships in subtribe 203–216
Stevia (Compositae: Eupatorieae), Novelties in 347–384, *aschenborniana* var. **occidentalis** 347, **chiapensis** 348, **cruzii** 348, **ephemera** 351, *glandulosa* var. **gentryi** 351, *hirsuta* var. **chortiana** 354, **iltisiana** 354, **incognita** 257, **isomeca** 360, **lasioclada** 362, *lemmonii* var. **hispidula** 364, **lita** 364, *lucida* var. **oaxacana** 365, *lucida* var. **robinsoniana** 365, **macvaughii** 365, *ovata* var. **expansa** 367, *ovata* var. **reglensis** 370, *ovata* var. **texana** 367, *palmeri* var. **constricta** 370, *polycephala* var. **oaxacensis** 370, **reticulata** 370, **seemannioides** 373, **talpensis** 375, **triangularis** 375, **urceolata** 379, **velutinella** 381, **zephyrantha** 381
STOUTAMIRE, WARREN P., Relationships of the purple-fringed orchids *Platanthera psycodes* and *P. grandiflora*. 42–58
STROTHER, JOHN L., Taxonomy of *Tetradymia* (Compositae: Senecioneae). 177–202
Systematic and evolutionary biology, Trends, priorities and needs in 421–444
Systematics of the genus *Ceratopteris* Brongn. (Parkeriaceae) II. Taxonomy, by ROBERT M. LLOYD 139–160
Taxonomic notes in the genus *Nama* (Hydrophyllaceae), Chromosome numbers and 101–105
Taxonomy of the genus *Aspasia* Lindley (Orchidaceae: Oncideae), by NORRIS H. WILLIAMS 333–346; of *Tetradymia* (Compositae: Senecioneae), by JOHN L. STROTHER 177–202; Systematics of the genus *Ceratopteris* Brongn. (Parkeriaceae) II. 139–160
Tetradymia (Compositae: Senecioneae), Taxonomy of 177–202, *axillaris* var. **longispina** 197, **tetrameres** 192
Texas, *Coreopsis nuecensis* (Compositae) and a related new species from southern 161–171
Theaceae: Breeding studies in the genus *Camellia* I. A chemotaxonomic analysis of synthetic hybrids and backcrosses involving *Camellia japonica* and *C. saluenensis*. 321–332
Three new legume species from South America, by HOWARD S. IRWIN and MARY T. KALIN ARROYO 264–270
Three new species from the Great Basin, by NOEL H. HOLMGREN and ARTHUR H. HOLMGREN 309–315
TOMB, A. SPENCER, Chromosome numbers and generic relationships in subtribe Stephanomeriinae (Compositae: Cichorieae). 203–216
Trends, priorities, and needs in systematic and evolutionary biology—workshop report (PETER H. RAVEN, editor) 421–444
Two new species of *Besleria* (Gesneriaceae) from Panama, by JOAN W. NOWICKE 37–41
Two shrubby novelties in *Eriogonum* (Polygonaceae (from the deserts of Utah and Arizona, by JAMES L. REVEAL 90–94
United States, New taxa in *Pectis* (Compositae: Pectidinae) from Mexico and the southwestern 30–36; A numerical study of the common narrow-leaved taxa of *Chenopodium* occurring in the western 398–410
The use of neutron activation analysis in pollination ecology, by MARTHA M. GAUDREAU and JAMES W. HARDIN 316–320
Utah and Arizona, Two shrubby novelties in *Eriogonum* (Polygonaceae) from the deserts of 90–94
WILLIAMS, NORRIS H., Taxonomy of the genus *Aspasia* (Orchidaceae: Oncidieae). 333–346
WINDLER, DONALD R., Chromosome numbers for native North American unifoliolate species of *Crotalaria* (Leguminosae). 172–176
YOUNG, DAVID A., Introgressive hybridization in two southern California species of *Rhus* (Anacardiaceae). 241–255
